

# TIGER GIVING DAY

# Fire and Flying

TigerGiving.org

February 21, 2018

The Forest Fire Management course is a valuable course for forestry, wildlife, and natural resources students. Over the last year the enrollment has doubled creating a need for additional equipment and technology. The goal for this project is \$25,000. Gifts of support will be matched 1:1 up to an additional \$25,000.

## Project Equipment:

- Fire suits
- Radios and chest harnesses
- Backpack pumps
- Water bags
- Drip torches
- Drones and additional technology

## Your Support Will:

- Open up more opportunities for students to take the Forest Fire Management course
- Improve safety
- Enhance learning experiences
- Provide research and outreach opportunities for landowners
