

# FORESTRY

## SUSTAINING AND MANAGING OUR DIVERSE FORESTS

Our curriculum combines cutting-edge theory and field practice to prepare the next generation of professionals with the knowledge and hands-on experience to succeed in a wide range of career fields within this dynamic industry.

Forestry majors are accredited by the Society of American Foresters (SAF). Graduation from such SAF-accredited programs is required of all applicants to obtain Registered Forester status in Alabama and several other states.

### Forest Engineering Option

Offered in conjunction with the biosystems engineering department, Forest Engineering students delve into forest management from an engineering perspective, preparing them for various careers where the manmade intersects with the natural world.

#### Choose your career.

- Forester
- Conservationist
- Logistics and Operations Manager
