

# College of Forestry, Wildlife & Environment

## SPECIALIZE YOUR CAREER WITH A MINOR

The College of Forestry, Wildlife and Environment offers a diverse variety of natural resource-focused minors to address present challenges of society and workforce gaps identified within industry and government. These minors allow students to customize their education to their unique interests when paired with other degrees on campus or to build upon the curriculum of the College of Forestry, Wildlife and Environment's Natural Resource Management Bachelor of Science degree.

- Coastal Management
- Environmental Law
- Forest Health
- Forest Seedling Nursery Management
- Nature-based Recreation
- Natural Resources Ecology
- Urban Forestry
- Watershed Sciences

Job opportunities are available in a wide array of organizations, including private industry, government, agencies, & NGOs.
