

WILDLIFE SCIENCE PRE-VET

ENSURING A QUALITY FUTURE FOR WILDLIFE

Wildlife Science, Pre-Vet

Learn the fundamental principles of wildlife management while preparing for veterinary school. Students build upon their interest in wildlife and the outdoors and further prepare for their professional study while gaining the wildlife ecology, management, and conservation understanding necessary to become a veterinarian.

Choose your career.

- Conservation Biologist
- Veterinarian
- Park Ranger
- Wildlife Biologist
- Zookeeper

Over the next decade, employment of veterinarians is expected to grow nearly 20%, much faster than the average.

GAIN REAL- WORLD EXPERIENCE THROUGH

- Study abroad
- Student clubs and organizations
- Undergraduate research
- Volunteering
