# SAVE THE DATE AND CALL FOR ABSTRACTS

## INTERNATIONAL CONFERENCE ON FOREST CARBON AND RESILIENCE (ICFCR)

**LOCATION: Auburn University, Alabama, USA**

**DATE: Sept. 29 - Oct. 1, 2025**

**WEBSITE: Scan the QR code or visit [cfwe.auburn.edu/icfcr](https://cfwe.auburn.edu/icfcr).**

The organizing committee of the International Conference on Forest Carbon and Resilience is pleased to announce a Call for Abstracts. The conference will be held at The Hotel at Auburn University and Dixon Conference Center in Auburn, Alabama, USA, Sept. 29 - Oct. 1, 2025.

The theme of the conference is forest-based carbon sequestration and forest resilience to changing environments and disturbance regimes, namely, (1) the role of forests and forest products in carbon storage and sequestration, and (2) the resistance, adaptation and resilience of forests in changing environments. Within these two broad themes, topics covered in this conference include, but are not limited to:

- Forest carbon markets (compliance, voluntary and in-house corporate)
- Forest carbon programs
- Forest measurements, and new tools and emerging geospatial technologies for accurate carbon measurement across multiple scales
- Forest management that contributes carbon sequestration and forest resilience
- Landowner behavior in response to forest carbon market development and other initiatives
- Life-cycle analysis of forests and forest products that store carbon and contribute to climate mitigation
- Government and non-government programs that incentivize forest landowners to practice climate-smart forestry
- Corporate ESG requirements as related to forest carbon offsets
- Forest deterioration and loss due to wildfires, pests, pathogens and invasive species
- Forest resistance, adaptation and resilience to weather events
- Silvicultural tools to enhance the resilience of forests to changing environments
- Cross-country (region) analysis of forest carbon sequestration and forest resilience

Abstract submissions are being accepted for presentations in panel, concurrent and poster sessions. Abstracts should be limited to 300 words each and will be accepted until **May 1, 2025**. Authors will be informed if their presentation is accepted by **June 1**. The registration deadline for presenting authors of accepted abstracts is **Aug. 1**.
